neighbor: Endothelium

The graph displays two data series. The 'reference: Haematoendothelial progenitors' series is a solid black line with circular markers and vertical red error bars, showing a non-linear increase from Z ≈ 0.5 at scale 100 to Z ≈ 10.2 at scale 1000. The 'neighbor: Endothelium' series is a horizontal dotted line at Z ≈ 4.0. A solid black horizontal line is also present at Z = 0. The plot area has a light gray grid.

scale	reference: Haematoendothelial progenitors (Z)	neighbor: Endothelium (Z)
100	0.5	4.0
150	1.5	4.0
200	2.8	4.0
250	4.0	4.0
